GENERALI

# About us

The history of our company date back to 1831, when Assicurazioni Generali was founded in Trieste, Italy. Today, we are present in 50 countries around the world and have become one of the largest insurance providers worldwide.

Inspired by almost two centuries of passion for art and culture, ARTE Generali offers specialised insurances for the art collection, household and property portfolio of our clients. Our personalised solutions are supported by cutting-edge services and digital tools to help and reward art owners.

# Why art insurance?

Compared to other insured objects, a work of art is characterised by its historical, financial, emotional and aesthetic value.

A comprehensive insurance concept is therefore essential to protect an insured work of art in the event of destruction, damage or loss.

Art is ...
